

Load receptors Professional

**iL Professional 20 F/HY**  
Single, dual or multi-interval scales with high weighing range resolution and low design. Weighing ranges up to 15 kg.

Load receptors Professional

**iL Professional 150F/HY**  
Single, dual or multi-interval scales with high weighing range resolution and low design. Weighing ranges up to 150 kg.

Load receptors Professional

**iL Professional 350 F/HY**  
Single, dual or multi-interval scales with high weighing range resolution and low design. Weighing ranges up to 300 kg.

Load receptors Professional

**iL Professional 750 F/HY**  
Single, dual or multi-interval scales with high weighing range resolution and low design. Weighing ranges up to 600 kg.

Load receptors Professional

**iL Professional 800F/MP**  
Dual interval scale for weighing ranges of up to 600 kg. Platform scale with a weighing platform height of only 81 mm.

Load receptors Professional

**iL Professional 150 SPM/SP**  
Hygienic scale for the food industry. Weighing ranges up to 150 kg.

Load receptors Professional

**iL Professional 20000F/MP**  
Heavy duty floor scale to be built into a pit or can be used freestanding. Load capacity up to 15 t.

Load receptors Professional

**iL Professional 2000F/MP**  
Modular, multi-point load receptor in extra flat design for weighing ranges of from 300 to 1500 kg.

Load receptors Professional

**iL Professional 4000F/MP**  
Modular, multi-point load receptor in extra flat design for weighing ranges of from 300 to 3000 kg.

Load receptors Professional

**iL Professional 6000F/MP**  
Modular, multi-point load receptor in extra flat design for weighing ranges of from 300 to 3000 kg.

Load receptors Professional

**iL Professional 7500F/MP**  
Modular, multi-point load receptor in extra flat design for weighing ranges of from 300 to 6000 kg.
